Re: Information Request Pursuant to Section 308 of the Clean Water Act
Analytical Sample Results and Monthly Progress Report

Dear Ms. Mitchell,

In accordance with the Information Request pursuant to Section 308 of the Clean Water Act dated October 6, 2009, Dalton Utilities is submitting the final analytical results received for the sampling conducted as outlined in Dalton Utilities Private Drinking Water Well Monitoring Report. The results are contained in Attachment A which is provided herein as a bound report titled Test America Laboratories, Inc. Analytical Report on Perfluorocarbon (PFC) Analysis Job # 280-5099-1 which contains 251 pages.

As noted in our correspondence dated July 6, 2010, one private drinking water well sample had several internal laboratory standard recoveries that were outside of the laboratory's acceptable range; therefore, the private well located at 705 Peek Road was re-sampled to ensure proper analyses and reporting.

As stipulated in the aforementioned 308 letter, Dalton Utilities Private Drinking Water Well Monitoring Report, and Dalton Utilities correspondence to you dated April 30, 2010, the attached analytical report is the final report for the private drinking water wells.

If you have any questions, please contact me at 706-529-1091 or dcope@dutil.com.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate,
